e. Addendum to Paragraph (b) Submission of Offers: In addition to those requirements as stated in paragraph (b), the following are added and shall apply to the submission requirements in response to this solicitation:

The vendor's submission must be clear, concise, and include sufficient detail for SSS's effective evaluation, and for substantiating the validity of stated claims. The submission should not simply rephrase or restate the Government's requirements but rather provide convincing rationale to address how the vendor intends to meet all the stated requirements with their proposed solution. Vendors should assume that the Government has no prior knowledge of their capabilities and experience. Accordingly, please note that the Government will base its evaluation solely on the information presented in the offeror's submission. Additional portions of the successful offeror's submission may be incorporated into the contract as an attachment in the award document at the Government's discretion.

b. Vendors shall submit complete technical quotations in accordance with these instructions. The Government intends to evaluate technical quotations and make award without unnecessary exchanges; therefore, vendors are encouraged to submit their best solution/approach and quotation initially. However, the Government

reserves the right to conduct clarifications or exchanges if determined to be in the Government's best interest.

c. Vendors shall set forth full, accurate, and complete information as required by this solicitation package. The penalty for making false statements in submissions is prescribed in 18 U.S.C. 1001.

d. The Government intends to award a single firm-fixed-price contract.

e. A vendor submitting restricted data shall mark it as follows in accordance with FAR 52.215-1, Instructions to Offerors-Competitive Acquisition, which is incorporated by reference. FAR Clause 52.215-1 states: "Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall:

i. Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed-in whole or in part-for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this vendor as a result of-or in connection with-the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [insert numbers or other identification of sheets]; and

ii. Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

The Government assumes no liability for disclosure or use of unmarked data and may use or disclose the data for any purpose. Unless restricted, information submitted in response to this request may become subject to disclosure to the public pursuant to the provisions of the Freedom of Information Act (5 U.S.C. 551).

f. This procurement is conducted under the procedures of FAR Part 13.5.

g. **Discrepancies:** If a vendor believes that the requirements in these instructions contain an error, omission, or are otherwise unsound, the vendor should immediately notify the named Contracting Officer in writing prior to the closing date of the RFQ.

h. Electronic Reference Documents: All referenced documents for this solicitation are available on the SAM.gov website at Home | SAM.gov . Prospective vendors are encouraged to subscribe for real-time

2. Award will be based on a comparative assessment of quotations using the evaluation factors identified below. The Government may award to other than the lowest-priced vendor when the perceived benefits of a higher-rated quotation justify any associated price premium.

3. The Government intends to evaluate quotations and make award without unnecessary exchanges. However, the Government reserves the right to conduct clarifications or exchanges if determined to be in the Government's best interest.

(b) Evaluation Factors:

The Government will evaluate quotations using the following factors:

1. Technical Capability and Demonstration
2. Past Performance
3. Price

Technical Capability and Demonstration, when combined with Past Performance, are significantly more important than Price. As quotations become more equal in technical merit and performance risk, Price will become increasingly important in the award decision.

Factor 1 – Technical Capability and Demonstration

The Government will evaluate the Offeror's demonstrated understanding of the requirement and its ability to successfully provide the commercial readiness simulation solution described in the Performance Work Statement (PWS).

The evaluation will consider the information submitted in the Technical Quotation together with the results of the Government-conducted demonstrations.

Areas of evaluation include, but are not limited to:

- Demonstrated understanding of the requirement.
- Compliance with the PWS.
- Functional capabilities of the proposed commercial solution.
- Ease of use and user interface.
- System configuration and administration.
- Reporting and analytical capabilities.
- Security features and data protection.
- Implementation approach and project schedule.
- Training and knowledge transfer.
- Overall technical merit and performance risk.

Demonstration Evaluation

The Government may invite Vendors whose written quotations are determined to be among the most highly rated to participate in a two-stage demonstration.

Stage 1 – Capability Demonstration

Vendors will demonstrate the capabilities and functionality of their proposed commercial solution using Government-provided demonstration guidance.

Stage 2 – Operational Scenario Evaluation

Vendors may be invited to demonstrate how their proposed solution performs Government-developed operational scenarios representative of the agency's mission requirements.

The demonstrations will be evaluated as part of the Technical Approach/Capability factor and will validate the capabilities represented in the written quotation.

Failure to participate in a requested demonstration, or failure to demonstrate the capabilities represented in the quotation, may adversely affect the Government's evaluation.

Factor 2 – Past Performance

The Government will evaluate the relevance and quality of the Vendor's recent past performance on contracts of similar size, scope, and complexity.

The Government may use information obtained from:

- References submitted by the Vendor.
- Contractor Performance Assessment Reporting System (CPARS), if available.
- Other sources deemed relevant by the Government.

A Vendor without a record of relevant past performance will receive a neutral assessment and will not be evaluated either favorably or unfavorably.

Factor 3 – Price

The Government will evaluate proposed prices for reasonableness, completeness, and balance.

The Government may compare prices among Vendors, to the Independent Government Cost Estimate (IGCE), historical pricing, market research, or other methods authorized by FAR Part 13 to determine whether proposed prices are fair and reasonable.

(c) Comparative Assessment

The Government will perform an integrated assessment of all evaluation factors in determining the quotation representing the best value.

Selection may be made to a Vendor whose quotation is not the lowest-priced if the Government determines that the additional technical merit, demonstrated capability, or reduced performance risk warrants the additional cost.

(d) Award

The Government reserves the right to:

- Award without conducting exchanges;
- Conduct clarifications or exchanges if determined to be in the Government's best interest;
- Invite Vendors to participate in the Government-conducted demonstrations;
- Reject any or all quotations if such action is determined to be in the Government's best interest.

The Contracting Officer's award decision will be documented in the contract file and will represent the quotation determined to provide the best overall value to the Government.

(e) ORGANIZATIONAL CONFLICT OF INTEREST (OCI)

The Vendor will be evaluated to assess whether an actual or potential OCI exists as defined by FAR Part 9.5. If an actual or potential OCI is identified that cannot be mitigated, avoided, or resolved in accordance with FAR Part 9.5, that Vendor may be ineligible for award.

(f) RESPONSIBILITY DETERMINATION

Prior to award, the Government may consider all information available concerning the Vendor's responsibility, including financial capability, integrity, performance record, and ability to successfully perform the contract.
